| Sales@net-tex.co.uk | www.net-tex.co.uk |
With well-managed and continued growth Net-Tex have invested in full laboratory facilities and expanded the Chemical and Aerosol Division. This enables our Technical Chemists to carry out extensive research and development for introducing new and innovative products. Structured to cater for Contract Manufacturing in any industry, Net-Tex can plan all aspects of your product from initial consultation, branded product formulation, artwork origination to packaging presentation.

Facilities include the dedicated productions of liquids, creams/pastes, greases, nutritional and industrial powders, aerosols, Silk-screen printing (aerosols) and labelling.

Net-Tex were formed in 1983 specifically geared to service the needs of the Veterinary and Agricultural Industry with innovative high technology solutions, nutrition and animal husbandry equipment products. As well as our respected livestock and husbandry brand we are famous for our COL-LATE and COLOSTRUM range which are unique in stimulating rapid energy boosts and providing essential nutrients and immunity. Our unique aerosol range for niche markets includes general automotive, fire and stove, equestrian products and an insecticide range.

Net-Tex are committed to research and development to produce products that are needed using the very latest equipment, production methods and packaging materials. We take pride in our extensive manufacturing expertise to supply the highest quality and most comprehensive range of products throughout the UK and to over 40 countries worldwide.

Providing an optimum service is paramount to our future, and the future for all of our customers. We believe in maintaining a helpful and friendly personal contact at our Head Office where our dedicated staff are on hand to assist you with your enquiries. Net-Tex provide a professional field sales force who have the essential background knowledge and experience to call on trade accounts throughout the UK and Republic of Ireland.

Our free of charge technical service is available should you require specific guidance and advice on existing formulations. If you require product consultation on new products in any marketplace, our technical advisors will be on hand to advise you on how to get started.
MITE & FLYING INSECT KILLERS

**Total Mite Kill Solutions:** Fast acting miticides for rapid knockdown and kill. Available in liquid, powder and ready to use liquid trigger sprays.

- **Total Mite Kill Liquid Concentrate**
  - A fast working insecticide with rapid knockdown and multi-purpose cleaner that:
    - Kills mites, fleas, lice and other flying and crawling insects.
    - Cleans & disinfects housing.
    - Kills bacteria, virus, yeast and fungi (i.e. E. coli, Salmonella, Listeria and Ps. Aeruginosa).
    - Oily base penetrates deep into cracks, crevices and corners which parasites commonly use as harbours.
  - HSE approved.
  - Product Codes: -
    - 4354 Size: 500ml
    - 4305 Size: 2 litre

- **Total Mite Kill Spray**
  - For use on hard and non-porous surfaces. A powerful insecticide with long-lasting residual action which penetrates deep into crevices where mites burrow and hide. One application will remain active for up to 3 months. A rapid knockdown action is designed to kill red, delumping and northern mites. Its residual activity will control mites migrating into outbuildings, poultry houses, arks and coops.
  - HSE approved.
  - Product Codes: -
    - 0663 250ml aerosol
    - 0664 500ml aerosol

- **Total Mite Kill Ready to Use**
  - The number 1 selling mite kill product with the same active ingredients as the concentrate but already diluted back for instant use. Ideal for the smallholder with a low number of chickens.
  - HSE approved.
  - Product Code: -
    - 4357 Size: 750ml

- **Total Mite Kill Powder**
  - A natural, non toxic mite control powder that can be applied directly onto all types of birds and poultry. Containing silica shelled fossilised diatoms, its killing action works mechanically on the surface of the pests, breaking down their waxy protective coating, causing them to dehydrate and die. Effective against red, delumping, northern, cyst and spider mites and other insects such as cockroaches, ants, silverfish, termites and other pests such as fleas, lice and ticks commonly associated with domestic pets.
  - HSE approved.
  - Product Codes: -
    - 4384 120g tube
    - 4409 300g tube

- **Terminal Professional Fly Spray**
  - Flying insect killer for use in arks, sheds, coops etc.
  - Terminal Professional Fly Spray is an insecticide with a rapid knockdown action that will kill most flying insects and target species such as; House flies, Little House Flies, Black Garbage Flies, Blow Flies, Small Dung Flies, Mites, Lice, Fleas, Wasps, Mosquitoes and Moths. HSE approved, it is completely safe to use, fast working and extremely efficient at keeping airborne pests at bay from poultry housing, coops, arks and coops.
  - Product Codes: -
    - 0663 250ml aerosol
    - 0664 500ml aerosol

- **Just for Scaly Legs - The 3 in 1 answer to Scaly Leg**
  - Designed to kill and effectively control the Scaly Leg parasite in one simple spray application. Just For Scaly Legs works in 3 ways:
    - 1st. It suffocates the Scaly Leg Parasite instantly, resulting in death.
    - 2nd. It provides immediate relief against itching and irritation.
    - 3rd. A synergised blend of repellents and natural oils provide a protective coating to prevent further infestation of the affected area.
  - Simply spray directly on the leg, feet, comb and wattles to treat the infested areas. Repeat every 5-6 days (to break the egg cycle) until the infestation has gone.
  - Product Codes: -
    - 4401 250ml
    - 4402 500ml

---

**GROUND SANITISING POWDER**

Ground Sanitising Powder is sprinkled on faeces and ground to eliminate all stages of eggs and larvae. The opportunity for re-infection is greatly reduced as birds will ingest fewer eggs or larvae resulting in lower worm populations in the bird’s guts.

- Product Code: -
  - TBA

**NATURAL WORM-R**

A natural and effective feed to expel internal parasites from bird’s guts to keep them healthy and worm free. Cleanses and exploits worms from the digestive tract. Natural active ingredients paralyse worms. Effective against adults and eggs to reduce viable egg count in the faeces.

- Product Code: -
  - TBA

---

**UNIQUE 2 PART WORMING PROGRAMME**

- An attractive introductory point of sale twin pack containing Ground Sanitising Powder and Natural Worm-R.
  - Product Code: -
    - 4621 Contains 1x 500g pack of Ground Sanitising Powder and 1x 25ml dropper of Natural Worm-R liquid feed.

**TERMINAL PROFESSIONAL FLY SPRAY - Flying insect killer for use in arks, sheds, coops etc.**

Terminal Professional Fly Spray is an insecticide with a rapid knockdown action that will kill most flying insects and target species such as; House flies, Little House Flies, Black Garbage Flies, Blow Flies, Small Dung Flies, Mites, Lice, Fleas, Wasps, Mosquitoes and Moths. HSE approved, it is completely safe to use, fast working and extremely efficient at keeping airborne pests at bay from poultry housing, coops, arks and coops. 

- Product Code: -
  - 4502 400ml aerosol
**NUTRITIONAL PRODUCTS & ANTI-FEATHER PECKING**

- **LIQUID TONIC** - With seaweed & bioflavonoids, a complete vitamin & mineral nutritional tonic for all breeding stock and commercial layers to maintain general health and vitality all year round.

  **Liquid Tonic will:**
  - Provide the essential vitamins and minerals for optimum feed conversion and growth
  - Help stimulate appetite and improve nutrient absorption during periods of nutritional imbalance
  - Help maintain peak egg production and improve yolk colour
  - Boost the immune system and aid in stress recovery
  - Bioflavonoids provide an anti-microbial action to help maintain a healthy and effective digestive function
  - Increase and improve the quality of eggshell strength and lay

  **PRODUCT CODES:**
  - 4392 500ml
  - 4393 250ml
  - 4394 100ml
  - 4395 50ml

- **MINERAL POWDER** - With pro-biotics and seaweed

  A complete nutritional diet for laying hens resulting in faster mouls, good egg quality and healthier, stronger birds. Contains high levels of limestone, oyster grit pro-biotics and seaweed. The limestone and oyster grit increase calcium consumption for strong and sturdy egg shells. Phosphorous is added to help the birds metabolise calcium. Pro-biotics (Saccharomyces cerevisiae) are high in quality proteins and contain a wide ratio of amino acids and B vitamins that stimulate extra immune protection to improve all round condition and performance. Seaweed improves the quality of eggshell strength, improves yolk colour and increases egg numbers as well as improving feed conversion and absorption of nutrients (seaweed is rich in vitamins A, D & iodine).

  **PRODUCT CODES:**
  - 4389 450g tube
  - 4511 1kg tube

- **POULTRY NUTRI-DROPS** - The wonder energy nutritional supplement for weak and lethargic birds – see the difference in just 30 minutes!

  Poultry Nutri-Drops will:
  - Provide an instant energy source for sick, weak, lethargic or sluggish birds (results visible in just 30 minutes)
  - Help boost the immune system and vitamin levels during periods of environmental stress e.g. when food intake is depressed at high temperatures
  - Help maintain peak production at times when maximum stamina and energy are required
  - Reduce the effects of stress during vaccination, handling and following antibiotic treatment when food absorption can be disrupted
  - Increase appetite and increase feed conversion
  - Aid in the preparation for onset of lay and disease recovery

  **PRODUCT CODE:**
  - 4500 Size: 30ml

- **ANTI-FEATHER PECKING SPRAY** - Double action spray

  Cannibalism and feather pecking are a complex multifactorial behavioural problem of poultry and game birds worldwide. Predisposing factors include tarsometatarsus and other diseases affecting mobility, boredom and strain of bird. Symptoms include: Pecking at feet (especially young chicks) and vents (adult layers and turkey pouls 8-12 days old), and also pecking at the head, face & wings and feather pulling. Cannibalism and feather pecking may lead to skin wounding leaving sores open to bacterial infection. In severe cases this will lead to a loss of blood resulting in generalised anaemia. Anti-Feather Pecking spray works firstly by preventing biting, plucking and cannibalism occurring as it contains a foul tasting substance with a very strong colour. The foul tasting substance is so strong most biting or plucking will cease after 1 or 2 days.

  Anti-bacterial agents have been incorporated for minor skin abrasions and will disinfect the afflicted sites immediately. These agents will also help to minimise bacterial infection spreading allowing commencement of the healing process.

  **PRODUCT CODES:**
  - 4467 250ml
  - 4460 500ml

- **POULTRY SEPTI-CLENSE POWDER**

  Easy to use bactericidal powder and wound dressing for minor cuts, bites, scratches, irritations and abrasions. Suitable for all poultry and bird types. Can be applied directly to the affected area to aid in the natural healing process. Gentle skin disinfectants ensure essential skin hygiene.

  **PRODUCT CODE:**
  - 4521 50g

- **POULTRY SEPTI-CLENSE SPRAY WITH VIOLET**

  An easy to use wound aerosol spray that is highly effective cleanser with a powerful bactericidal action. This ultra quick and powerful wound spray has been specifically designed to control and immediately inhibit any existing or possible infection from external wounds, grazes or skin punctures that require on the spot attention. When applied it leaves a violet residue to show if the whole of the affected area has been covered.

  **PRODUCT CODE:**
  - 4504 200ml aerosol

**STERILANTS, DISINFECTANTS & WOUND TREATMENTS**

- **CONCENTRATED STERILISING SOLUTION**

  1 litre concentrate = 166 litres solution

  **PRODUCT CODE:**
  - 4428 1 litre

- **ANTI-BACTERIAL HAND SANITISING GEL**

  A bacterial and moisturising gel designed to prevent the hand borne transmission of bacteria from pets and animals to humans. Use after touching pets or farm animals. With added emollients to prevent skin drying.

  **PRODUCT CODE:**
  - 4581 250ml

- **ANTI-BACTERIAL HAND GEL**

  A powerful and fast working gel designed specifically to protect the skin and hands against the spread of bacteria. The alcohol gel is effectively designed to prevent the hand borne disease transmission of bacteria from pets and animals in use and is environmentally safe on correct disposal.

  **PRODUCT CODE:**
  - 4522 50g

- **VIRATEC-P POULTRY DISINFECTANT**

  Viratec-P Poultry Disinfectant is UK DEFRA approved against all notifiable poultry diseases for use on housing, arks and poultry equipment. Effective on porous surfaces, hard water and in the presence of organic matter.

  Powerful and fast working, Viratec-P will kill bacteria within 5 minutes. It has an exceptional safety profile towards man and animals in use and is environmentally safe on correct disposal.

  **PRODUCT CODE:**
  - 4509 750ml trigger spray

- **READY TO USE STERILISING SOLUTION - SIMPLY SPRAY, LEAVE AND DISINFECT!**

  **PRODUCT CODE:**
  - 4500 750ml trigger spray

**POULTRY WOUND TREATMENTS**

Most poultry wounds are caused by a peck, a spur, a claw, so dirt or germs often get deep into the wounds. Poultry Septi-Clense Solutions products are the easy way to treat superficial wounds and abrasions. They work quickly to kill bacteria and stop the threat of infection.
**EWE BOOST**
Specifically formulated for ewes suffering post lambing exhaustion, or where ewes have exerted themselves beyond the limit of available energy resources during parturition. High energy source rich in phosphorus, thiamine and iodine.

**DOSAGE** - 25ml orally

**PRODUCT CODE** - 0649

**Packaging:** 100ml bottles (4 ewes) in 6-pack display carton outer.

---

**LAMB KICK START**
General tonic and rapid energy and nutrition boost for newborn fading weak lambs, also providing protection from pire, white muscle disease and iodine deficiency. Supplied with 1ml pump dispenser.

**DOSAGE** - 4ml orally

**PRODUCT CODE** - 0650

**Packaging:** 100ml bottles (25 lambs) in 6 pack display carton outer.

---

**WHOLE COLOSTRUM FOR LAMBS**
Targeted for the larger breed. Whole Colostrum contains 50% more energy and protection than any other colostrum replacer. Administer as soon after birth as possible, if this is not possible Col-late Whole Colostrum is completely effective for older lambs. Mixing: 40g to 100ml water.

**PRODUCT CODES** -
- 0785 Packaging: Screw top tub 2 x 250g sachets, (12 lamb pack).
- 0548 Packaging: Boxed in 10 x 40g sachets, (10 lamb pack).

---

**MULTI LAMB RAPID**
For the reduction of the risk and recuperation after Ketosis (Twin Lamb Disease). High-energy concentrated nutritional complex will have ewes up and feeding within 2 hours with a single dose.

**DOSAGE** - 45ml orally

**PRODUCT CODES** -
- 1483 Packaging: 90ml (2 dose) no dispenser spout 6 pack carton outer.
- 0200 Packaging: 225ml (6 dose) no dispenser spout 12 pack carton outer.
- 0201 Packaging: 456ml (11 dose) with dispenser spout.
- 2162 Packaging: 2.5 kilo Tub - 100 lamb pack.
- 2161 Packaging: 5 kilo Tub - 300 lamb pack.
- 2165 Packaging: 10 kilo Tub - 500 lamb pack.

---

**NUTRIFLUSH**
For ewes and rams at flushing. An essential tool in maintaining a balanced health status in low condition score ewes prior to mating, especially useful to enhance ovulation. This product has a history of outstanding results.

**DOSAGE** - 12.5ml orally

**PRODUCT CODE** - 0662

**Packaging:** 1 Ltr bottle (80 dose).

---

**INSTANT WHOLE COLOSTRUM FOR LAMBS**
Whole Colostrum is easy to use, non-vac polycarbonate bottle. Simply pour in warm water, shake and it is ready to use. Provides four feeds. Any unused product can be stored under refrigeration for several days if required.

**PRODUCT CODE** - 0258

---

**ULTRA CONCENTRATE COLOSTRUM FOR LAMBS**
Each dose is a nutritional feed containing a high level of immunoglobulins, giving energy and protection from stress and hypothermia.

**PRODUCT CODES** -
- 0425 Packaging: 10 x 25gm sachets - 10 lamb pack (boxed).
- 0849 Packaging: 250gm - 10 lamb pack (screw top tub).
- 0407 Packaging: 500gm - 20 lamb pack (screw top tub).
- 0424 Packaging: 1 kilo Tub - 40 lamb pack.
- 2162 Packaging: 2.5 kilo Tub - 100 lamb pack.

---

**WHOLE COLOSTRUM FOR LAMBS**
Whole Colostrum is a ready to use, non-vac polycarbonate bottle. Simply pour in warm water, shake and it is ready to use. Provides four feeds. Any unused product can be stored under refrigeration for several days if required.

**PRODUCT CODE** - 0258

---

**ULTRA CONCENTRATE COLOSTRUM FOR LAMBS**
Each dose is a nutritional feed containing a high level of immunoglobulins, giving energy and protection from stress and hypothermia.

**PRODUCT CODES** -
- 0425 Packaging: 10 x 25gm sachets - 10 lamb pack (boxed).
- 0849 Packaging: 250gm - 10 lamb pack (screw top tub).
- 0407 Packaging: 500gm - 20 lamb pack (screw top tub).
- 0424 Packaging: 1 kilo Tub - 40 lamb pack.
- 2162 Packaging: 2.5 kilo Tub - 100 lamb pack.
**LAMB CARE**

Designed for all newborn lambs as soon after birth as possible, and lambs that remain on the ewes. Lamb Care is a potent energy source containing dedicated colostral immunoglobulins. Lambs are active and protected in minutes.

**Dosage:**
2ml orally

**Product Code:**
0685 Packaging 120ml (60 lamb size) with pump dispenser 6-pack carton outer.

---

**FIRST LIFE LAMB AND CALF COLOSTRUM**

A whole colostrum formulation suitable for both lambs and calves providing immunoglobulins and instant energy.

**Dosage:**
25gm per lamb feed
250gm per calf feed

**Product Codes:**
3357 250gm pot 3358 500gm pot 3775 1 Kilo pot

---

**LAMB CARE INTENSIVE**

A high colostral protein and energy supplement for new born lambs facing severe disease challenges. An oral dose syringe containing 7 doses in measured increments

**Dosage:**
4ml orally

**Product Code:**
3340 Packed in boxes of 6 syringes

---

**WHOLE COLOSTRUM FOR CALVES**

Extra energy for weak or small calves, plus extra antibodies giving added instant protection from disease. A source of live beneficial bacteria to counter the effects of pathogens in the gut together with a complete balanced nutritional replacement feed for calves with little or no colostrum.

**Dosage:**
Mix 228gm tub with 1litre of warm water and feed as soon after birth as possible

**Product Code:**
0482 Packaging: 228gm sachet (one calf pack) in plastic pail

---

**ROTO-CORONA PLUS**

A breakthrough in the protection in newly born and transported calves. An oral syringe supplying a rich cocktail of anti-bodies, pro-biotics and essential vitamins.

**Dosage:**
30g orally

**Product Code:**
3952 Packed in boxes of 6 single dose oral syringes

---

**CALF CARE SYRINGE**

Similar to Roto-Corona Plus but packaged for export markets.

**Dosage:**
30g orally

**Product Code:**
3195 Packed in boxes of 12 single dose oral syringes
**COL-LATE FOR CATTLE BREEDING**

- **Calf Kick Start**
  For lethargic calves that are off their feed or their feet. A source of energy and nutrients for unthrifty, sick and scouring calves. Fast acting. CALF KICK-START is absorbed within minutes. A concentrated source of energy which carries essential nutrients into the bloodstream of the unthrifty calf. Ideal for weak newborns.

  PRODUCT CODE - **0632**
  Packaging: 240ml plastic bottle (8 calf size) 6 pack outer carton.

- **Nutri-Scour Gel Powder for Calves**
  An electrolyte and energy nutritional supplement that contains buffering agents and a unique swelling agent that restores and re-invigorates a weak calf, at the same time as removing the pathogenic cause of the scour. Feed 50g per calf with 500ml of warm water or milk and give as a drench.

  PRODUCT CODE - **1337**
  500g (10 calf size)

**COL-LATE FOR PIG BREEDING**

- **Calf Kick Start**
  An immediately available source of glucose, B vitamins, vitamins A, D and E, amino acids and trace minerals for at risk, sick and scouring piglets from birth to weaning. PIGLET KICK-START ensures that the sick piglet receives immediate assimilation of energy and nutrient even when the digestive system is crippled or non-functioning as the essential ingredients are shunted directly into the bloodstream across the stomach wall. Marked improvement will be evident in minutes.

  DOSAGE - 2ml (one pump) orally. Repeat every 12 hours as necessary.
  PRODUCT CODES - **0417** Packaging: 100ml (50 piglet size) with pump dispenser.
  **0637** Packaging: 250ml (125 piglet size) with pump dispenser. 10-pack carton outer.

- **PIG STOP BITE**
  An antiseptic astringent anti-tail biting violet spray, sanitises, disinfects and prevents re-curring cannibalism.

  DOSAGE - 2ml as soon as possible after birth.
  (One pump) - 4ml Weak and Vulnerable Piglets (2 pumps)
  PRODUCT CODE - **1067**
  Pump Spray 500ml

- **WHOLE COLOSTRUM FOR PIGLETS**
  Colostrum replacer, produced from natural colostrum which is prepared using technology resulting from dedicated research, ensuring optimum performance without efficiency loss. WHOLE COLOSTRUM FOR PIGLETS contains naturally occurring immunoglobins, a potent energy source, protein, minerals, vitamins and specific immunoglobins which maintain the gut in optimum condition for nutrient transfer.

  DOSAGE - 10g mix in 40ml lukewarm water and feed ad lib.
  PRODUCT CODES - **0480**
  240ml (120 piglet size) with dispensing pump. 10-pack carton outer.
  **0637**
  Packing: 250ml (125 piglet size) with pump dispenser. 10-pack carton outer.

- **TRADITIONAL PIG OIL**
  Provides a lustrous shine for show animals. Prevents coat staining and tackles problem lice.

  PRODUCT CODES - **4479** 4.5 litre
  **4481** 2 litre

**NETTEX**

- **Litter Care**
  Concentrated colostral immunoglobulins plus immediate energy, developed specifically to reduce mortality in newborn piglets. Giving an excellent level of protection for up to 28 days, the potent energy source will have the piglet aggressively suckling and receiving more colostrum from the sow in minutes.

  DOSAGE - 2ml as soon as possible after birth.
  (One pump) - 4ml Weak and Vulnerable Piglets (2 pumps)
  PRODUCT CODE - **0480A**
  Packaging: 240ml (120 piglet size) with dispensing pump. 10-pack carton outer.

- **Strip Stop Bite**
  An antiseptic astringent anti-tail biting violet spray, sanitises, disinfects and prevents re-curring cannibalism.

  DOSAGE - 2ml as soon as possible after birth.
  (One pump) - 4ml Weak and Vulnerable Piglets (2 pumps)
  PRODUCT CODE - **1067**
  Pump Spray 500ml
**COL-LATE FOR DOG BREEDING**

- **PET BREEDER NUTRI-DROPS**
  
  An immediately available liquid source of glucose, vitamin B, amino acids, vitamins A, D and E and trace minerals specially formulated for the dog breeding industry, to provide rapid absorption of essential nutrients. PET BREEDER NUTRI-DROPS helps to stimulate appetite, saving chilled and stressed pups, increasing pup survival rates and minimising whelping disasters.

  **DOSAGE**:
  - Newborns: 1ml (one pump) per 21bs (9.09kg) body weight, or 0.1ml per 3.2oz (90gms) bodyweight. May be repeated every 6 hours.
  - Critical Aid: 1ml (one pump) per 31bs (1.36kg) bodyweight. Slow Whelping Bitches - 1ml (one pump) per 10lbs (4.5kg) bodyweight.

  **PRODUCT CODES** -
  - 0641 Packaging: 30ml dropper bottle.
  - 0642 Packaging: 120ml bottle with dispenser pump.
  - 0643 Packaging: 240ml bottle with dispenser pump.

- **SPORTING DOG KICK START**

  A high energy, nutrient rich, orally administered liquid concentrate. To maximise the racing dogs natural performance and improve the ability to cope with stress. Elevations in glucose levels can be demonstrated in minutes and within 30 minutes 50% of the nutrients are taken up in the bloodstream. A routine first feed for puppies up to the first 36 hours of life, FIRST LIFE will keep in liquid for up to 72 hours.

  **DOSAGE**:
  - Newborns: 10g (one measure) in 20ml water per 110g bodyweight.
  - 2 Day Pups: - 10g (one measure) in 40ml water per 110g bodyweight.

  **PRODUCT CODE** -
  - 0640 Packaging: 120ml bottle with pump dispenser.

**COL-LATE FOR CAT BREEDING**

- **FIRST LIFE PUPPY COLOSTRUM**

  100% colostrum derived immunoglobulins plus a balanced level of fats and proteins in a perfect match to the puppy’s natural first feed, hence providing an essential measure of protection against disease in the gut, together with a completely balanced nutritional feed. FIRST LIFE’s natural protective protein remains in the gut providing continuous benefit from prolonged feeding. A routine first feed for puppies up to the first 36 hours of life, FIRST LIFE will keep in liquid for up to 72 hours.

  **DOSAGE**:
  - Newborn Pups: 10g (one measure) in 20ml water per 110g bodyweight.
  - 2 Day Pups: - 10g (one measure) in 40ml water per 110g bodyweight.

  **PRODUCT CODES** -
  - 0545 Packaging: 340g jar
  - 0230 Packaging: 100g jar with 10g measuring scoop.

- **VETERINARY PET NUTRI-DROPS**

  A high energy, nutrient rich liquid concentrate, providing a rapid response within minutes. For weak and stressed newborns and pets suffering with neo-natal hypoglycemia, juvenile hypoglycemia, whelping/neonatal inertia, anacardia and scours. VETERINARY PET NUTRI-DROPS is indicated in any condition where additional energy and nutrients are needed to support normal metabolic function and normal immune system activity.

  **DOSAGE**:
  - Newborns: 0.1ml per 3.2oz (90gms) bodyweight.
  - Critical Aid - 1ml (one pump) per 31bs (1.36kg) bodyweight. Slow Whelping Bitch - 1ml (one pump) per 10lbs (4.5kg) bodyweight.

  **PRODUCT CODES** -
  - 0640 Packaging: 30ml dropper bottle.
  - 0647 Packaging: 120ml bottle with dispensing pump.

- **FIRST LIFE KITTEN COLOSTRUM**

  For orphan kittens or young animals whose mothers are furnishing inadequate or insufficient colostrum. Complete nutrition and protection package scientifically formulated with protein, vitamins, minerals and lactic acid, especially for newborn or orphan kittens.

  **DOSAGE**:
  - For newborn kittens: Mix one scoop (10g) to 20ml of warm water. Feed 12cc (1 tablespoon) of mixture per 55g (2oz) body weight every 2 hours. Continue to day 3 then revert to milk replacer if kitten is strong, active and healthy. If in doubt, continue regime until satisfied.

  **PRODUCT CODE** -
  - 0542 Packaging: 100g jar with 10g measuring scoop.

- **KITTEN LIFE-LINE PACK**

  A high energy, nutrient rich liquid concentrate, containing only quality nutritional ingredients proven safe and effective. NUTRI-DROPS FOR CATS is an immediate source of glucose, B vitamins, amino acids, vitamins A, D & E and trace minerals. NUTRI-DROPS are indicated in any condition where additional energy and nutrients are needed to support normal metabolic function and normal immune system activity. NUTRI-DROPS also aids to insure newborn kittens start out strong and nurse vigorously, aids in stimulating the appetite, saving chilled and stressed kittens, over coming neo-natal hypoglycemia, and increasing the survival of kittens undergoing infectious and diarrhoeal disease.

  **DOSAGE**:
  - Newborn - 0.1ml per 3.2oz (90gms) body weight.
  - Critical Aid - 1ml (one pump) per 31bs (1.36kg) bodyweight. Slow Kittening Queen - 0.5ml per 5lb (2.25kg) bodyweight.

  **PRODUCT CODES** -
  - 0397 Packaging: 100gm Colostrum and 30ml Pet Breeder Nutri-drops.
  - 0396 Packaging: 30ml dropper bottle.

**PET BREEDER NUTRI-DROPS and FIRST LIFE COLOSTRUM, are available as a combination survival kit. The essential tool for dog breeders.**

**PRODUCT CODE** -
- 0296 Packaging: 100gm Colostrum and 30ml Cat Breeder nutri-drops
CALF FEEDING

- **Calf Feeder Bucket**
  Single teat feeder bucket with integral hanging rack. Spare teats available.

  **PRODUCT CODES**
  - 4217 Complete bucket
  - 4216 Spare valve set
  - 1225 Spare teat (non-vac)

- **Calf Feeder Bottle & Teat**
  (non-vac system)
  1.5 litre rigid polycarbonate bottle for easier handling. Can be microwaved to sterilise (bottle only). Quality non-vac rubber teat designed for calves and other large livestock. Neck size also accommodates lamb non-vac teat.

  **PRODUCT CODES**
  - 1205 Bottle and teat (non-vac)
  - 1225 Spare teat (non-vac)

- **Calf Feeder Bag**
  A robust 3 litre bag with a stomach feeder tube and packed in a clear Euro slot holder bag.

  **PRODUCT CODE**
  - 3925

- **Calf Feeder Bottle & Teat (non-vac system)**
  1.5 litre rigid polycarbonate bottle for easier handling. Can be microwaved to sterilise (bottle only). Quality non-vac rubber teat designed for calves and other large livestock. Neck size also accommodates lamb non-vac teat.

  **PRODUCT CODES**
  - 1205 Bottle and teat (non-vac)

LAMB FEEDING

- **Colostrum Feeder Bottle & Orange Latex Tube**
  Combination pack includes orange surgical latex stomach tube and graduated bottle, suitable for feeding the right amount of colostrum to even the largest lambs without refilling. Positive pressure can be applied to save time.

  **PRODUCT CODE**
  - 0040

- **Colostrum Feeder Syringe & Plastic Tube**
  Used for feeding colostrum to lambs. A 60ml metered syringe to help administer doses quickly yet gently. Latex tube reduces the risk of injury to the lamb during insertion and softens when in place.

  **PRODUCT CODE**
  - 0474

- **Colostrum Feeder Syringe & Orange Latex Tube**
  Combination pack includes orange surgical latex stomach tube and graduated bottle, suitable for feeding the right amount of colostrum to even the largest lambs without refilling. Positive pressure can be applied to save time.

  **PRODUCT CODE**
  - 0040

- **Spare Latex Tube**

  **PRODUCT CODE**
  - 0042

- **Pull-on Lamb Teats**
  Made of superior rubber to make it supple yet with strong walls. A bulbous end is specially designed to encourage fast acceptance. Hollow cone tip permits milk flow regulation by cutting at tip for slow flow or at lower tip for increased flow. Fits most household bottles.

  **PRODUCT CODES**
  - 0007 Black
  - 0168 Clear
LAMB FEEDING

**NON-VAC BOTTLES**
A large, 500ml BOILABLE POLYCARBONATE BOTTLE complete with teat and collar. Extra tough to prolong life and calibrated for accurate feeding. 38mm extra wide neck for easy filling. Strong plastic collar ensures secure fixing of teat. Sterilise by boiling.

**PRODUCT CODE** - 0005

**NON-VAC TEATS**
Specially designed ISOPRENE TEAT with unique vacuum releasing valve, moulded in, to make feeding easier. Bulbous end of teat encourages more rapid acceptance by lambs. Special hollow cone tip allows flow of milk to be regulated.

**PRODUCT CODE** - 0006

**SCREW ON TEATS (NON VAC)**
A natural longer shaped teat which eliminates loss of milk from the corners of the lamb’s mouth and therefore is more cost effective than types previously available. New design assures fast acceptance by the lamb. Fits a greater variety of bottles and the tips of teats can be cut to accommodate the required milk flow.

**PRODUCT CODE** - 0834

**NON VAC BOTTLE RACK SYSTEM**
(Patent applied for) The most innovative multi-lamb feeder ever designed, yet simple and effective for rearing orphan lambs. Saves feeding and cleaning time. Saves money by mixing only the required amount of milk, eliminating wastage. Can be used simultaneously unattended. Coated for long life, the bottle rack system can be fixed to front of pen or hung on fences, walls etc. Comes complete with fixing screws, 4 non vac bottles, non vac teats and collars. Ready for use.

**PRODUCT CODE** - 0004

**LAMB ADOPTION MUSK**
Aerosol spray to eliminate rejection during fostering by neutralizing the natural ewe and lamb odours.

**PRODUCT CODE** - 0011 Packaging 200ml

**DISPOSABLE SYRINGE 60ml**

**PRODUCT CODE** - 0264

**FEEDER BUCKET SPARES**
**PRODUCT CODES** -
0430 Spare cross cut teat
0376 Spare valve set

**FEEDER BUCKETS**
Improved feeder bucket system and hanging rack, incorporating a traditional cross cut teat system to eliminate wastage. Spare teats available.

**PRODUCT CODES** -
0366 Six Teat Bucket
0367 Four Teat Bucket

**Packaging**: 200ml.
**CASTRATION RINGS**

**Boxed**
- Product Code: 0037 100 boxed
- Product Code: 0308 500 boxed

**Bagged**
- Product Code: 1931 100 bagged
- Product Code: 1932 500 bagged

**Tub**
- Product Code: 1306 1500 Tub

**DIGITAL THERMOMETERS**

A rapid easily read and accurate reading of the temperature of all animals. Especially useful for diagnosing hypothermia in lambs.

**Product Code**
- 0034 Centigrade
- 0252 Fahrenheit

**CASTRATION PLIERS**

Extremely high quality steel pliers for applying rings when castrating or tail docking.

**Product Code**
- 0012

**LAMB PULLER**

An extremely hygienic product manufactured in rubber which is significantly softer and kinder to lambs during birth. Unlike traditional rope the LAMB PULLER will not damage or scald the legs.

**Product Code**
- 0044

**PROLAPSE EWESPOON**

A traditional well known product, features include extra tying position for stability. Tying tapes supplied in pack.

**Product Code**
- 0032 Packaging: 4 pack.

**PROLAPSE HARNESS**

A realistically priced harness for secure retention of prolapses without the need for stitching. Simple, secure, hygienic, can be used in conjunction with the ewe spoon. As recommended by D.E.F.R.A. Free ewe spoon supplied.

**Product Code**
- 0151 Double adjustable cotton
- 0152 Double adjustable nylon

**LAMB SLING**

Ideal harness sling for weighing or carrying lambs, avoiding crushing to the animal. Sturdy but comfortable cradle with handles. Features an industrial quality self locking snap buckle for quick and easy adjustment.

**Product Code**
- 0064

**LAMB MACS**

Designed to slip over lambs head and secure by all four legs to give maximum security, comfort and protection. FOUL WEATHER KILLS LAMBS. Protects against hypothermia, lowers mortality rates and keeps out the wet and the wind.

**Product Codes**
- 0880 Red 25 pack
- 0149 Clear 25 pack

TOTAL SOLUTIONS GROUP
**UDDER CARE AND DAIRY PRODUCTS**

**UDDER SALVE WITH IODINE**
A high quality traditional salve with added iodine for extra sanitising and disinfection of damaged teats.

**PRODUCT CODES** -
- 4072 2 litre
- 4073 4 litre
- 4113 500ml hooked bottle

**TEATMINT**
A soft readily absorbed cream containing pure lanolin, glycerine and other emollients incorporating a high level of natural extracts – predominantly peppermint. Lower levels of Rosemary, Eucalyptus, Menthol, Allantoin, Camomile essence (alpha Bisabolol) have been incorporated each with their own homeopathic claims of circulating, stimulating, wound healing and anti-inflammatory effects.

**PRODUCT CODES** -
- 1770 500ml hooked bottle

**MEDICATED DAIRY UDDER WIPES**
Unique formula that disinfects, soothes and conditions sore and cracked udders. For the hygienic control of mastitis, use one towelette per animal to prevent cross-contamination.

**PRODUCT CODES** -
- 1129 1000 sheets in resealable tub
- 1141 1000 sheets - refill pack
- 1420 200 sheets in resealable tub

**UDDER SALVE**
A traditional salve based on pharmaceutical grade petroleum jelly with the added emolliency and protection of Lanolin and Glycerine

**PRODUCT CODES** -
- 1751 Udder Salve 1 litre tub
- 1752 Udder Salve 4 litre tub

**UDDER CREAM**
A soft readily absorbed, non-greasy cream containing pure Lanolin and Glycerine to give superior skin suppleness and acts as a barrier to adverse weather conditions or the environment. As an additional feature, udder cream contains a material renowned for its wound reparation properties.

**PRODUCT CODES** -
- 1753 Udder Cream 1 litre tub
- 1754 Udder Cream 4 litre tub

**CATTLE HOBBLES**
A substantial pair of hobbles used for limiting the spread of the hind legs. Made from very strong cotton web, fully adjustable with anti-chaff inners for comfort and joined by a length of heavy gauge chain or fixed cotton.

**PRODUCT CODES** -
- 0604 Cotton Webb fixed
- 0199 Cotton Webb with chain
- 4079 Heavy duty
**FLUTTER VALVE**

For injecting sterile solutions into a vein or under the skin.

**PRODUCT CODE**: 3957

---

**STERILISING SOLUTION**

Immediate hygiene for sterilising feed utensils. Can be used in the farmhouse kitchen too.

**PRODUCT CODE**: 4209

---

**DISPOSABLE LATEX GLOVES**

Powdered disposable latex wrist length gloves. Packs of 100.

**PRODUCT CODES**:
- 0390 Medium
- 0393 Large

    - 3588 2.5 Litre jerrican
**LAMELESS 3 HOOF DISINFECTANT PACK**
A 3 product pack containing a surgical scrub, a disinfectant and a barrier gel. Effective against digital dermitis, sole ulcers and bacteria.

PRODUCT CODE: 4196

**LAME-LESS**
The unique combination foot rot bath solution which kills all microorganisms associated with foot rot conditions in both sheep and cattle. 5kg tub makes up 50 litres of solution, which is suitable for 250 sheep, or 50 head of cattle. Contains Zinc Sulphate, Quaternary Ammonium Compound, 1-5 Pentanedis and Surfactant.

PRODUCT CODE: 0458 Packaging/5kg tub

**HOOF PHAST**
A routine walkthrough footbath solution to maintain healthy feet and hooves, in all livestock. Active ingredient benzalkonium chloride conforms to British Standard 6471. Rapidly kills bacteria known to be associated with foot problems, protects for 48 hours. Remains 100% active in solution with up to 50% soiling for up to 2 weeks. Pre measured, water-soluble sachets ensure user friendliness.

PRODUCT CODES -
4202 Surgical scrub 500ml
4200 Disinfectant 500ml
4197 foot barrier gel 500ml

**DERMA PHENOX (Sheep)**
DERMA-PHENOX represents a major breakthrough in the fight against all major foot infections and hoof deterioration in sheep. This powerful formulation provides a triple level solution to the problem:

- A powerful combination of non-toxic bactericides rapidly kills the bacteria that create the problem.
- The solution is absorbed into the tissue to provide prolonged protection against further re-infection by killing re-invading bacteria.

PRODUCT CODE: 0305 500ml

**DERMA PHENOX 3 (Cattle)**
DERMA-PHENOX 3 represents a major breakthrough in the fight against Digital and Interdigital Dermatitis. This powerful formulation provides a triple level solution to the problem:

- A powerful combination of non-toxic bactericides rapidly kills the spirochete and other bacteria that create the problem.
- The solution is absorbed into the tissue to provide prolonged protection against further re-infection by killing re-invading bacteria.

PRODUCT CODE: 0639 500ml

**ABCESS FOOT ROT KNIFE**
All stainless steel curved retractable blade for paring and removing abscesses in infected hooves.

PRODUCT CODE: 0182

**CLOVEN HOOF SEARCHER**
High quality stainless steel single edged blade with sturdy, smooth finished wooden handle.

PRODUCT CODES -
0070 Small
0253 Large

**FOOTMASTER**
A highly researched and developed formulation for the effective topical treatment of foot problems in livestock. Gives a concentrated spray application, which eliminates wastage yet, allows saturation of badly affected areas. Only a single treatment is necessary in most cases. Outer packing: 12

**MYTI FENCER WIRE STRAINER**

Easy to use, leaves both hands free for hammer and staples. Used for straining to fixing, no more than 30 seconds. Will strain any type of gauge including barbed, plain and electric, sheep/pig mesh and all types of netting without damaging the surface of the wire.

**PRODUCT CODE - 0077**

---

**MYTI-PLIERS**

High quality steel fencing pliers designed to give maximum benefit to the user.

10 year guarantee.

**PRODUCT CODE - 0983**

---

**MYTI FENCER**

Rapid Wire Strainer, from straining to fixing, no more than 30 seconds.

1. Take wire in one hand and place into centre joint of Myti Fencer. Place head of Myti Fencer on post in position required.

2. Apply pressure needed as illustrated

3. Maintain pressure by turning body against Myti Fencer thus leaving both hands free for hammer and staples.

With MYTI FENCER you can strain any gauge or type without damage to surface.

---

**NT UNIVERSAL SYNTHETIC GREASE**

This is a synthetic lubricant that is applied as a liquid for deep penetration and then quickly dries off to form a high-tack grease.

It can be used in a high temperature range. Is ideal for lubricating moving parts such as hinges or where a medium duty lubricant is required. Also protects against salt water corrosion.

**PRODUCT CODE - 1413**

500ml Aerosol

THE UK’S NO1 ADVANCED FLY AND MIDGE CONTROL RANGE

Net-Tex fly repellents contain DEET and conditioners in a moisturising formula that keeps the product effective for longer by slowing down evaporation.

**FLY REPELLENT SHAMPOO**
Net-Tex Fly Repellent shampoo is a low-foaming, easy rinse, conditioning wash designed to repel unwanted insects and flies and to relax your horse. A dual purpose conditioning shampoo that repels, removes dirt and sweat with ease and leaves manes, coats and tails with a smooth conditioned finish. A lemon compound has been incorporated for additional repulsiveness and to leave a fresh scented smell to your horse or pony.

Size: 500ml
PRODUCT CODE: 4259

**LAVENDER WASH SHAMPOO**
Net-Tex Natural Lavender wash is a low foam body wash designed to relax your horse after exercise and competition that helps keep insects at bay. Lavender is known to possess calming and soothing properties and this concentrated shampoo contains natural derivatives to remove dirt and sweat with ease and a natural bactericide that is effective with minor cuts and bruises.

Size: 500ml
PRODUCT CODE: 4262

**FLY REPELLENT SPRAY ADVANCED 500ML TRIGGER AND 2 & 5 LITRE RE-FILLS**
One application – 3-day protection. Ideal for horses living out all summer. HSE approved.

PRODUCT CODE: 4312 750ml
PRODUCT CODE: 3716 2 litre re-fill
PRODUCT CODE: 3679 5 litre re-fill

**FLY REPELLENT SPRAY 500ML TRIGGER AND 2 & 5 LITRE RE-FILLS**
The original formula offering all day protection with one application. Voted 10/10 in the 2006 Edition of Horse magazine! HSE approved.

PRODUCT CODE: 4310 750ml
PRODUCT CODE: 3717 2 litre re-fill
PRODUCT CODE: 3678 5 litre re-fill

**BOT EGG REMOVER 500ML TRIGGER SPRAY AND SCRAPER**
Totally unique to Net-Tex and the only product of its type in the world. This fast safe spray breaks down the bot eggs causing immature larvae to escape, thus preventing the ingestion of larvae and subsequent disruption of the gut wall. A specially designed scraper is provided to help remove the eggs after application. The foul taste and smell will discourage the horse from licking the infected area. Prevents attachment of subsequent eggs for up to 5 days depending on local circumstances.

PRODUCT CODE: 2332 500ml

**FLY REPELLENT WIPES AVAILABLE IN TWO SIZES: 50 OR 200 WIPES**
The same effective formula in handy wipes for the face and for horses that do not like sprays. An essential addition to the summer grooming kit for shows. HSE approved.

PRODUCT CODE: 2458 50 wipes
PRODUCT CODE: 1390 200 wipes

**ITCH STOP STARTER PACK**
A cost effective starter pack for Sweet Itch sufferers containing:
- 1 x 300ml Itch Stop Summer Freedom
- 1 x 100ml Itch Stop Pre-Wash Shampoo
- 1 x 50ml Itch Stop Twist & Repel

PRODUCT CODE: 4247

**ITCH STOP SUMMER FLY CREAM 600ML CREAM**
Soft readily absorbed non-greasy cream for easy application to sensitive areas. HSE approved. Contains DEET.

PRODUCT CODE: 2325

**ITCH STOP SUMMER FREEDOM (known as SUMMER FREEDOM in Ireland) 600ML**
This smooth blended formula is easily absorbed into the mane, tail and skin to protect, disinfect and sanitise existing sores as well as repelling against new bites. Containing researched repellants such as DEET and blended natural extracts, Itch Stop combines advanced technology with nature to maximise longevity of repellency - just one application can last up to a week, making it extremely cost effective. This weather resistant cream instantly soothes, cools and relieves the itching – helping to put a stop to the itch, scratch, and sore cycle as well as assisting in the re-epithilisation of the skin and hair growth.

This product does not contravene Jockey Club or FEI regulations and is HSE approved.

PRODUCT CODE: 2252

**ITCH STOP SUMMER FREEDOM in Ireland) 600ML**
For a midge protection top up, when your horse is out and about.ITCH STOP TWIST & REPEL contains the same active ingredients as Itch Stop Summer Freedom but in a pocket sized unit. One application will keep your horse midge free all day, making it a horsey essential, wherever you and your horse go! HSE approved.

PRODUCT CODE: 2252

**ITCH STOP SUMMER FREEDOM in Ireland) 600ML**
Exactly the same product with a different name available in the Republic of Ireland only with a name change to comply with the Irish Medicines Board.

PRODUCT CODE: 2320

Net-Tex offers horse owners and their equine friends a respite from midge attacks, with their patented 3 Step Midge Free Plan, which can be easily incorporated into a management programme, whether your horse or pony is stabled or living out 24/7.
**CALMERS & ELECTROLYTES**

### CALMERS

- **NICE AND EASY CALMER 1 & 2 LITRE LIQUID**
  
  A long-term supplement containing an advanced bio-liquid magnesium compound to balance magnesium levels in the diet. A magnesium deficiency is the most common cause of anxious, tense behaviour. Feeding Nice and Easy regularly will reduce tension without compromising performance and alertness. Improves behaviour and concentration for relaxed performance.

  Results visible within 3 – 5 weeks of first administration.

  **PRODUCT CODE** - 2627 1 litre
  **PRODUCT CODE** - 2628 2 litre

- **NICE AND EASY BOOSTER SYRINGE 30G SYRINGE**
  
  With results visible within 60 minutes, this rapidly absorbed formula gives fast calming without impairing mental alertness. Administer two to three hours prior to competition or one hour prior to clipping, transporting or farrier visits.

  Contains magnesium and selected B Vitamins. Does not contain any banned substances that contravene Jockey Club or FEI rules.

  **PRODUCT CODE** - 3085

### ELECTROLYTES

Net-Tex Electrolyte products provide all the electrolytes and salts required to maintain optimum hydration and speed up recovery time after exercise. Feeding electrolytes on a daily basis enables the body to quickly replenish salts and trace elements lost through sweating.

- **FAST ELECTRO-RECOVERY 1 & 2 LITRE LIQUID**
  
  This liquid electrolyte contains Calcium, Magnesium, Manganese, Zinc and Copper plus Ribose to maintain energy and to aid in the reduction of muscle fatigue and tying up. Fast Electro-Recovery provides immediate absorption and can be easily mixed with feed, dissolved in water or administered orally. A peppermint flavouring is added for palatability.

  **PRODUCT CODE** - 3071 1 litre
  **PRODUCT CODE** - 3090 2 litre

- **ELECTROLYTE PLUS 2KG POWDER**
  
  A scientifically balanced electrolyte to replace the sodium, potassium and chlorides lost through sweating after heavy work and competition. Rapidly absorbed and fast acting. Contains Vitamin B12 and a peppermint flavouring for palatability.

  **PRODUCT CODE** 2329

### FOAL CARE

Net-Tex are acknowledged world leaders in the survival and health of new born animals

CARL HESTER PERFORMANCE RANGE

CARL HESTER JOINT & MUSCLE RANGE

The Carl Hester joint range is the first of its type to cater for joint & muscle support. The range comprises of 3 products all containing key ingredients Glucosamine HCL, Chondroitin, MSM, HA with fast working anti-oxidants and added muscle building and support ingredients to produce results quickly.

JOINT AND MUSCLE MAINTENANCE LIQUID & POWDER

A supplement for every day use in either a liquid or a powder to be fed to any horse or pony whatever its age to help prevent the onset of joint problems and provide support to surrounding muscles for improved flexibility and elasticity.

Up to 50 days supply

PRODUCT CODE - 3854 1 litre liquid
PRODUCT CODE - 3935 1 Kg powder

JOINT & MUSCLE INTENSE 30ML SYRINGE

Joint & Muscle Intense is an instant oral pick me up for tired joints and muscles where beneficial ingredients are delivered straight to the joint, muscle and skeletal system within 24 hours.

PRODUCT CODE - 3908

JOINT AND MUSCLE PRO BOOST 500ML

A unique 4 day competition boost for all horses and ponies no matter what their level or discipline. Gives a confident, focused and stress free horse at competition time by providing muscle energy, improving concentration and mental alertness, reducing nervousness and tension and improving elasticity of joint and muscle movement.

This unique product works by building up a concentrated reserve of:
- Calmers and anti-stress agents
- Muscle energizers and stimulators
- Anti-oxidants to clear toxins from muscle build up
- Fat burners to assist with muscle support.

PRODUCT CODE - 3855

CARL HESTER HOOF BUILDER 1 5KG POWDER

Hoof Builder is a supplement that takes the worry out of feeding what, when and how for strong and healthy hooves. By combining carefully researched and selected ingredients, your horse can enjoy all the nutrients needed for great hooves in one or two simple scoops each day. Fast working active ingredients deliver Hoof Builder into the system quickly – ensuring fast, total absorption - so the re-building process can begin immediately.

Active ingredients:
- Biotin, Methionine, Zinc, Manganese, Lysine, Vitamins A & D3 & MSM.

PRODUCT CODE - 3862 1kg (approx 50 days supply)
PRODUCT CODE - 3863 Size 5kg (approx 8 months supply)

CARL HESTER RESPIRATORY

NASAL VAPOUR 200G POT

This innovative and easy to apply salve is a great remedy for the temporary relief of minor respiratory irritation or congestion. Applied directly to the nostrils it gives immediate relief helping open up the airways. May be used prior to events to clear congestion.

PRODUCT CODE - 3889

CARL HESTER ELECTROLYTES

A horses body weight is approximately 65% water, so an average sized horse of 500kg will comprise of about 325kg of water. Horses working for an hour at a trot or for short periods at high speed can lose over 10 litres of sweat in just one workout and in hot weather this figure could increase dramatically. Electrolyte replacement is imperative for health and well being, not just for performance.

PRO-ELECTROLYTE REPLACER 1 LITRE

An essential for every horse owner - this fast working electrolyte replaces depleted electrolytes and speeds up recovery time from fatigue after exercise, hot weather or competition. Contains BCAA (Branch Chain Amino Acids) to assist muscle energy and reduce lactic acid build up which is the primary cause of tying up and muscle cramp.

PRODUCT CODE - 3857 (approx 20 days supply)

PRO- ELECTROLYTE PLUS – 30ML SYRINGE

Pro-Electrolyte syringe should be given to horses before travelling when excessive sweating can lead to loss of vital electrolytes which can severely impede performance. In addition, muscles that are static, not contracting and not relaxing normally, will stiffen - requiring recuperation upon arrival.

For optimum effect administer syringe 30 minutes before travelling and within 30 minutes post competition to help speed up the recovery process.

PRODUCT CODE - 3856 (outers of 6 - 30ml syringe)
For some horse owners, owning a ‘excitable or nervous’ horse or pony can have a huge impact on what they can and cannot do with their horses. Some horses have different triggers, for some it will be arriving at a show ground or the competition atmosphere that pushes them over the edge, whilst for others it can be simply seeing horses in the distance out hacking. Whatever the cause, nervousness, wariness, excitability, apprehension and irritability can be detrimental to the horses’ performance under saddle and lead to other health issues including muscle tremors and tying up.

- **PRO-MAG CALM MAINTENANCE LIQUID AND POWDER**
  
  Contains 2 forms of magnesium. The first compound is a very small amino acid that when dissolved, is readily absorbed through the intestine wall and quickly builds up magnesium in the body for a rapid calming effect. The second compound, magnesium aspartate is regarded as the Aston Martin of magnesium salts. It is quickly absorbed and will keep magnesium levels topped up so horses and ponies will stay and remain calm on a long term basis.

  These 2 compounds have been chosen over other traditional forms of magnesium such as sulphate, calcium magnesite and magnesium oxide because they deliver 12mg of magnesium per feed which is the most a horse can store at a quicker absorption rate.

  **PRODUCT CODE** - 4077 Liquid 1 litre (approx 50 days supply)  
  **PRODUCT CODE** - 3858 Liquid 1 litre (approx 50 days supply)

- **RECHARGE 500ML**

  Horses can become fatigued or lethargic due to a whole host of reasons such as hard work, travelling, new surroundings or poor diet. If it needs a boost you want to do it quickly! Recharge works uniquely by delivering a comprehensive blend of glucose, vitamins and minerals quickly into the bloodstream allowing a horse to be up “with a spark” within 24 hours.

  - Ingredients are absorbed directly into the blood stream meaning no wastage and quicker absorption. Works faster than products that are fed via the digestive system where 60% of the actives are lost
  - Will have a weak or lethargic horse or pony up and back to its old self within 24 hours
  - An insurance policy to be used for travelling long distances or for the hard working sports horse under a lot of pressure

  **PRODUCT CODE** - 3911 (approx 15 days supply)

- **PRO MAG CALM BOOST 30ML SYRINGE**

  An easy to administer feed for stressful situations such as competition, travelling, clipping or farrier visits. Works within 30 minutes to help take the edge off excitable horses on competition days. Simply feed 1 hour before the event is due to start for a more relaxed horse.

  **PRODUCT CODE** 3859
